

# Chieftain JOAD

This program teaches archery to young people and provides opportunity for achievement in competition. We have dedicated coaches that provide tips and techniques to the group as well as individual development.

## Junior Olympic Archery Development (JOAD):

This is for kids and young adults under 21 years old, who want to compete in tournaments with others around their skill level and age.

**Requirements:** Must have a current USA Archery membership number from <https://www.teamusa.org/usa-archery/membership/membership-benefits>

- Shooters must be able to shoot 18 meters or just under 20 yards.
- Shooters must have their own archery equipment. In some cases this requires more advanced equipment that is costly to help get them shooting at the next level.

**Dates:** We will start up on **October 15, 2018** and continue every Monday night through the end of March 2019. Tournaments (cost \$12 per tournament) are at different archery clubs with Saturday time slots, but time slots are also sometimes available on Friday and Sundays.

**Time:** **6:00 PM** and be there till you shoot 30 arrows or a 300 round. We encourage you to come early or stick around and shoot an extra 30 arrows as tournaments will be 60 arrows or a 600 round.

**Junior Olympic Archery Development (JOAD) 6:00 PM, Cost is \$2 a night!**
